CEO'S COMMENTS

Significant price increases offset cost inflation

Essity's net sales reached new record levels in the third quarter. We raised prices for our leading hygiene and health solutions by an average of 14.5% compared to the same period a year ago at the same time as we reported higher volumes in all business areas. Our price increases are offsetting the high cost inflation with a delay of approximately two quarters. We are continuing to invest in innovation and expansion of our offerings to promote a higher quality of life for customers and consumers with more climate-smart offerings, strong brands and increased e-commerce sales.

During the third quarter of 2022, net sales increased 28.8% to approximately SEK 40.1bn. Sales growth, including organic sales growth and acquisitions, amounted to 17.3%, of which price/mix accounted for 14.8%, volume for 1.5% and acquisitions for 1.0%.

EBITA amounted to SEK 2,784m and adjusted EBITA to SEK 2,990m, down 17% compared to the same period a year ago. The adjusted EBITA margin declined 4.0 percentage points to 7.5%. Cost inflation worsened further in the third quarter. Costs for raw materials, energy and distribution had a negative impact of 12.7 percentage points on the adjusted EBITA margin. We are addressing this through comprehensive price increases and energy price surcharges that will have an additional effect in the fourth quarter and in 2023. Despite significant price increases, we noted higher volumes in all three business areas. We are continuing to work at a high pace with efficiency improvements, energy saving measures and raw material rationalizations. Sales and marketing costs were higher during the quarter but decreased as a share of net sales. The adjusted return on capital employed was 8.4%. Earnings per share were SEK 2.23.

The environmental footprint of our products is decreasing, and we are meeting consumer demands for solutions that are better for the user and the planet. During the quarter, we launched a climate-smart baby diaper under the leading brand Libero. Libero's hybrid diaper consists of two parts: a washable textile diaper cover and an absorbent disposable insert. Online sales increased by nearly 20% in the third quarter and amounted to approximately SEK 5.7bn. Many initiatives are being implemented in the company to also increase our presence in the direct-to-consumer channel, including the acquisitions of Knix and Modibodi, two leading companies in leakproof apparel.

A new Group organization will be effective from year-end 2022 entailing that the Group will have four business units in line with the company's business areas. These four business units are Professional Hygiene, Health & Medical, Consumer Goods EMEA and Consumer Goods Americas. In parallel, a global unit, Digital & Business Services, will be established.

Through a focus on innovation, strong brands, efficiency improvements, digitalization and sustainability, we are strengthening Essity's competitiveness in leading hygiene and health solutions in an attractive and growing market. We are managing cost inflation through price increases.

NOTES

1 ACCOUNTING PRINCIPLES

This interim report has been prepared in accordance with IAS 34 and recommendation RFR 1 of the Swedish Financial Reporting Board (RFR), and with regards to the Parent company, RFR 2. A few amended accounting standards published by the IASB entered into force on January 1, 2022 following approval by the EU. Essity Aktiebolag (publ) applies these amendments, which have not had any material impact on the Group's or the Parent company's financial statements. All other applied accounting principles and calculation methods correspond to those presented in Essity Aktiebolag's (publ) Annual and Sustainability Report for 2021.

2 RISKS AND UNCERTAINTIES

Processes for risk management

Essity's Board of Directors determines the Group's strategic direction based on recommendations from the Executive Management Team. Responsibility for the long-term, overall management of strategic risks corresponds to the company's delegation structure, from the Board of Directors to the CEO and from the CEO to the business unit presidents. This means that most operational risks are managed by Essity's business units at the local level, but that they are coordinated when considered necessary. The tools used in this coordination consist primarily of the business units' regular reporting and the annual strategy process, where risks and risk management are a part of the process.

Essity's financial risk management is centralized, as is the Group's internal bank for the Group companies' financial transactions and management of the Group's energy risks. Financial risks are managed in accordance with the Group's finance policy, which is adopted by Essity's Board of Directors and which – together with Essity's energy risk policy – makes up a framework for risk management. Risks are aggregated and monitored on a regular basis to ensure compliance with these guidelines. Essity has also centralized other risk management.

Essity has a staff function for internal audit, which monitors compliance with the Group's policies in the organization.

Essity's risk exposure and risk management are described on pages 35–40 of Essity's Annual and Sustainability Report for 2021. No significant changes have taken place that have affected the reported risks.

Risks in conjunction with company acquisitions are analyzed in the due diligence processes that Essity carries out prior to all acquisitions. In cases where acquisitions have been carried out that may affect the assessment of Essity's risk exposure, these are described under the heading "Events during the quarter" in the interim and year-end reports.

Risk that arose in conjunction with the war in Ukraine

The war in Ukraine has created an uncertain situation for the health and safety of several of our employees. Furthermore, the global situation has also been negatively affected and, for example, energy prices in Europe have increased drastically. The higher energy prices impact Essity's earnings.

The company's assets in Russia have been impaired by approximately SEK 1.7bn. Furthermore, work has been initiated to exit the Russian market. In 2021, Essity's net sales in Russia amounted to approximately SEK 2.8bn, corresponding to about 2% of total consolidated net sales in 2021. Net assets in Russia amount to approximately SEK 1.7bn. These assets consist of, among other things, cash and cash equivalents of SEK 1.1bn. It is not possible to foresee if these cash and cash equivalents will be available outside Russia but it is assumed that they can be used to pay debts in Russia that amount to approximately SEK 1.0bn. Other assets consist of inventory of approximately SEK 700m, trade receivables of approximately SEK 700m and other receivables of approximately SEK 200m. Essity has 1,300 employees in Russia and three production plants.

Essity's net sales in Ukraine amounted to less than 1% of total consolidated net sales in 2021.

No transfers between level 1 and 2 were made during the period.

4 ACQUISITIONS AND DIVESTMENTS

On July 1, 2021, Essity acquired the remaining 63.8% of the shares in the hygiene company Asaleo Care. The purchase price allocation for the acquisition has been finalized. No adjustments were made and the final purchase price allocation is the same as the preliminary purchase price allocation presented in the Annual and Sustainability Report for 2021.

On December 29, 2021, Essity acquired 100% of the US-based wound care company Hydrofera. The purchase price allocation is unchanged compared to the Annual and Sustainability Report for 2021 and has not yet been finalized.

In addition to the acquisitions of Asaleo Care and Hydrofera, Essity also acquired the company Aquacast LCC in the final quarter of 2021. The purchase price allocation for this acquisition is the same as that presented in the Annual and Sustainability Report for 2021 and has not yet been finalized.

On February 2, 2022, Essity acquired the US cleaning and wiping company Legacy Converting, Inc. The company has approximately 30 employees. The final purchase price amounts to USD 39m (SEK 362m) with a potential additional earnout amount of USD 10m (SEK 94m) on a cash and debt-free basis, excluding financial lease liabilities. Since the acquisition, Legacy Converting's reported net sales amounted to SEK 97m, adjusted EBITDA to SEK 14m, and adjusted EBITA to SEK -1m. If Legacy Converting had been consolidated as of January 1, 2022, net sales would have amounted to SEK 107m, adjusted EBITDA to SEK 16m and adjusted EBITA to SEK -1m.

On July 7, 2022, Essity announced that the company was acquiring the Australian company Modibodi, a leading leakproof apparel company in Australia, New Zealand and the UK. The purchase price amounted to AUD 141m (approximately SEK 1bn) on a cash and debt-free basis. Modibodi has about 45 employees and is headquartered in Sydney, Australia. Modibodi was consolidated into Essity's accounts from August 1, 2022. Since the acquisition, Modibodi's reported net sales amounted to SEK 63m, adjusted EBITDA to SEK -6m, and adjusted EBITA to SEK -6m. If Modibodi had been consolidated as of January 1, 2022, net sales would have amounted to SEK 291m, adjusted EBITDA to SEK -9m and adjusted EBITA to SEK -10m.

On July 8, 2022, Essity announced that the company is acquiring 80 percent of Canadian company Knix Wear Inc. ("Knix"), a leading supplier of absorbent menstrual and incontinence underwear. The agreement with the seller includes a put/call option to buy/sell the remaining share in three years at fair value at the future time when the option can be redeemed. The amount to be paid if the option is exercised is initially recorded at present value as a liability in Essity's balance sheet. The transaction was completed on September 1, 2022. The purchase price amounted to CAD 430m (approximately SEK 3.5bn) on a cash and debt-free basis for 80 percent of the company. In 2021, the company reported net sales of CAD 133.6m (approximately SEK 914m), EBITDA of CAD 13.8m (approximately SEK 95m) and EBITA of CAD 13.4m (approximately SEK 92m). Knix has approximately 200 employees and is headquartered in Toronto, Canada. Knix was consolidated into Essity's accounts from September 1, 2022. Since the acquisition, Knix's reported net sales amounted to SEK 112m, adjusted EBITDA to SEK 1m, and adjusted EBITA to SEK 0m. If Knix had been consolidated as of January 1, 2022, net sales would have amounted to SEK 966m, adjusted EBITDA to SEK -10m and adjusted EBITA to SEK -15m.

5 USE OF NON-INTERNATIONAL FINANCIAL REPORTING STANDARDS (IFRS) PERFORMANCE MEASURES

Guidelines for Alternative Performance Measures (APMs) for companies with securities listed on a regulated market in the EU have been issued by ESMA (European Securities and Markets Authority). These guidelines are to be applied for APMs not supported under IFRS.

This interim report refers to a number of performance measures not defined in IFRS. These performance measures are used to help investors, management and other stakeholders analyze the company's operations. These non-IFRS measures may differ from similarly titled measures among other companies. Essity's 2021 Annual Report, pages 75–80, describes the various non-IFRS performance measures that are used as a complement to the financial information presented in accordance with IFRS. Tables are presented below that show how the performance measures have been calculated.
